

2024 Right Size Giving Corporate Partners

Bring the power of education to single parents.

Want to play an important role in transforming the lives of single-parent families through education and career development? Single parents face significant barriers to economic mobility. By becoming a Right Size Giving Partner, you can help change the future for single-parent families in Larimer and Weld counties. Your dollars will ensure the post-secondary academic success of single-parent participants by removing barriers like housing, childcare, transportation, mental health, and more.

At Project Self-Sufficiency, businesses that give make an impact on our work. Helping single parents achieve higher education is paramount for the economic vitality of our community, and your support makes all the difference.

Our Right Size Giving Partnership levels provide a platform for businesses of all sizes to support our mission with one sponsorship per year while receiving benefits that span the entire year - including recognition in communications and engagement with your business in thoughtful and meaningful ways. We've created four "Power Levels," or levels of investment, that allow you to give in line with your organization's goals.

Right Size Giving Benefits	Power Level 4 \$10,000	Power Level 3 \$7,500	Power Level 2 \$5,000	Power Level 1 \$2,500
Listing in communications - digital and print.	✓	✓	✓	✓
